Dear Dr. Parmar,

Thank you for participating in the interlaboratory study on evacuated canister analysis conducted by the National Institute for Occupational Safety and Health (NIOSH). It was a pleasure to work with you and your team to assess the method precision. This information was crucial for the development of Method 3900 "Volatile Organic Compounds, C1 to C10, Canister Method" in the NIOSH Manual of Analytical Methods. I recognize the time and resources donated to this project and wanted to express my gratitude.

Thank you for your assistance in this matter.

Sincerely,
